SKILLS

- **Languages**: C++, JavaScript
- **Web Development:** HTML, CSS, NodeJS
- **Databases**: Knowledgeable in OOPs, DBMS, Operating System
- **Tools/Platforms**: VS code

PROJECTS

URBAN OUTFITS: (Urban Outfits)   Mar-April 2024

Developed a complete eCommerce website/web app using React JS and Tailwind CSS, featuring a dynamic Home Page with latest and bestselling products, a product collection page with filtering, sorting, and search options, and a detailed product page with image gallery, description, and related items. Implemented order management through Place Order, Cart, and My Order List pages, along with user authentication via Login and Signup pages. Additionally, created an Admin Panel for product management and order updates, ensuring smooth functionality and enhanced user experience.

Tech Bazaar – E-commerce Platform: (Tech Bazaar)   Dec-Feb 2025

Tech Bazaar is a scalable e-commerce platform for electronics, built using Next.js, React, and Tailwind CSS. It features secure user authentication, seamless product management, and an optimized checkout process powered by Stripe. Leveraging Next.js for server-side rendering (SSR) and incremental static regeneration (ISR), the platform ensures high performance and SEO optimization. The responsive design and modern UI enhance the user experience, making online shopping efficient and intuitive.

Speed Meter:(Speed Test)   Sep-dec 2024

Built a fully functional eCommerce website using React JS and Tailwind CSS, including a Home Page with latest and bestselling products, a product collection page with filter and search options, and a detailed product page. Developed order management features like Cart, Place Order, and My Order List pages, along with user authentication. Created an Admin Panel for product and order management, ensuring seamless user experience and smooth site functionality.

ACHIEVEMENT

- Secured Rank Under 1000 in CUET-PG 2023. Ranked under 1500 in the CUET-PG 2023 for MCA, demonstrating strong analytical and problem-solving skills.
